Team and Individual Performance

- Leaders define the organization's mission and strategic goals
  - Cascaded to the work unit and employee objectives
  - Can also align work horizontally
- Objectives draw a line of sight between the employee's work, the work unit's goals, and the organization's success
- When work is aligned to the mission, from any perspective you choose, everyone is working together towards shared goals

Planning

Plan Employee Performance

- ## Job Objectives = "What"
  - **<u>Written</u> jointly by employee and supervisor**

  - **Communicate specific individual, team, or organizational responsibilities and expected contributions with related outcomes and accomplishments**

  - **Draw a line of sight between the employee's work, the work unit's goals, and the organization's success**

  - **Results-oriented and mission-focused**

  - **Must be weighted**

  - **Written in the "SMART" framework**

When communicating job objectives to employees, supervisors need to fully explain the relationship between an employee's accomplishments and achieving organizational goals

SMART Objectives

S - **Specific**
- **Specific regarding the result (not the activities to achieve that result)**

M - **Measurable**
- **Quantity, time, quality, resources**

A - **Aligned**
- **Objectives link employee's work, work unit's goal, and organization's mission**

R – **Realistic and Relevant**
- **Realistic: Can be accomplished with the resources, personnel, and time**
- **Relevant: Are important to the employee and to the organization**

T - **Timed**
- **When the objective will start, or when it will be completed**

Plan Employee Performance

- **Contributing Factors = "How"**

  - **Selected <u>for each objective</u>**

  - **Attributes of job performance that are significant to the accomplishment of individual job objectives**

  - **Further defined by "work behaviors" and "benchmark descriptors"**

  - **Standard across DoD**

  - **Described at the "Expected" and "Enhanced" level**

Rating Levels

Standard rating levels used in DoD

Rating Level	Level of Performance	Performance Description
Level 5	Role Model	**Almost always meets the standards described by the Role Model benchmarks**
Level 4	Exceeds Expectations	**Almost always meets the standards described by the Valued Performance benchmarks and, typically, but less than almost always meets the standards described by the Role Model benchmarks**
Level 3	Valued Performance	**Almost always meets the standards described by the Valued Performance benchmarks**
Level 2	Fair	**Almost always meets the Valued Performance benchmarks, but only as a result of guidance and assistance considerably above that expected at the Valued Performance level**
Level 1	Unsuccessful	**Performs below Level 2, or fails a Standard Performance Factor in the performance of a single assignment where such failure has a significant negative impact on accomplishment of the mission or where a single failure to perform could result in death, injury, breach of security, or great monetary loss**

Cultural Change

Reward Eligibility

Performance Rating	Employees are eligible to receive:
5	• **Performance based pay**
4	• **Rate range adjustments**
3	• **Local market supplement increases**
2	• **Rate range adjustments** • **Local market supplement increases**
1	• **No increases**

Share Ranges

- **Shares in the pay pool are awarded as shown in the table:**

Rating Level	Share Range
5	5 or 6
4	3 or 4
3	1 or 2
2	0
1	0

- **Share ranges allow further distinction between levels of contribution**

- **Estimated value of a share reflects a percentage of salary**

- **Actual share value not known until Pay Pool Panel finishes**

The more shares assigned within the pay pool, the less the value of each share

Pay Pool Basics

Command Decision

- **What is a pay pool?**

  1. **Employees who share in distribution of a pay-for-performance fund**

  2. **The actual pool of money that funds performance payouts**

- **How are membership and boundaries of a pay pool determined?**

  – **By organizational structure**

  – **By similar lines of occupations or jobs**

  – **By geographical location**

  – **By organizational mission**

  – **Other considerations: pay bands, career groups, etc.**

  – **Army guidance: size should range from 35 to 300**

- **Pay pools will be structured differently in different organizations**

Process

- **Supervisor**
  - **Recommends performance rating / number of shares**
  - **Recommends distribution between salary increase and bonus**

- **Higher level reviewer**
  - **Reviews supervisor's recommendations, changes as appropriate**

- **Pay Pool Panel**
  - **Reconciles/changes ratings, shares, and distribution within the pay pool**

- **Pay Pool Manager**
  - **Makes final decisions on rating of record, number of shares, and distribution**

- **Performance Review Authority**
  - **Assures equity across pay pools, resolves requests for reconsiderations**

- **Supervisor**
  - **Conveys final rating, shares, and distribution to employees**

How do we ensure consistency and fairness?
